First Time Good News for Public Schools

To the unknown thief who roamed over the 4,000 square feet of The Star building during the night —Than' You.

I mean it.

The building was full of intricate and costly printing machinery, and 40 tons of newsprint — but this you spared.

All you took were some records and books and letters. We have them to spare — even though we're offering $100 cash reward for information, and lesser amounts for return of part of them.

While you's got 'em. read 'em carefully — you're looking at the bones of a bang-up newspaper and business organization that we've been 21 years building up.

This is the first time your correspondent has been robbed.

We've much to be thankful for.

Governor Sid McMath gave new courage to schoolmen and taxpayers generally this morning when he published his declaration before the State Education Board that state aid to local schoole districts will not be cut in the coming fiscal year.

He told the board that the public schools will receive as much money during the 1950-51 fiscal year (starting July 1) as they got in the fiscal year 1949-50.

What the state doesn't contribute to local schools everywhere must be met by increases in local taxes. So the governor's statement today spares us just that much.

Magician's Show to Benefit Scouts

From a time, the memory of man runneth not to the contrary, feats of magci have held a high place in the respect of human kind.

Whenever a man of magic is scheduled for an appearance it causes more than idle talk and chatter. "What can he do?" "Is it real?" "Gee, what wonders." and many more remarks come from the mouths of all.

But when regarding a man of the calibre and high training of America's Cleverest Magician, Dr. Gaffney, who is scheduled to perform at he Hope High school auditorium under the auspices of the civic minded Lion's club a 8 p. m. March 23 the tempo of questions and answers increases to almost the bursting point of human curosity and wonderment.

Dr. Gaffney is from the old school of magicians. He first studied under the Great Harry Kellar, later by living among the mystics of the Far East he learned manh oriental feats of magic. It would seem ligical for him to bill his performance "From the land of the Unknown" but his knowledge of his art does not stop there. He has added feats of modern magic to the mystical feats of the ages past.

Get tickets now fro Dr. Gaffney's performance. You may purchase tickets from any Boy Scout in Hope. As a prize for selling all of their tickets the Lion's club is admitting each scout free to the performance of Dr. Gaffney. As a further incentive to boost sales the Lion's club has purchased a "bar-b-qmaster" mounted on wheels. This excellent barbecue machine will be presented to the scouts if they are successful in selling all of their tickets. The machine is ideal for picnics and can easily barbecue enough meat to feed the whole troop and their friends.

Girl Scout Radio Broadcast Scheduled 6 p. m. Tuesday

The following leaders of local scout troops will participate ii a broadcast in observance of the 38th year of the organization Tuesday from 6 to 6:15 p.m.;

Mary Lewis, Ann Adams, Betty Jane Burroughs, Shelby Riley, and Sue Ann Smith. Mrs. William Routon, in charge of the program invites the public to tune in on the program.

Wildcaters Push Nation's Oil Reserves Up

New York, March 14 —(AP)—Wildcatting oilmen have pushed the total reserves of one of the nation's war essentials to a new high. They have also pushed back the clock on the heatedly debated question: When will this country use up its oil resources?

The National Education Association estimated that in January 1950 at least 250,000 city children were in school only part time.

WEATHER FORECAST

Arkansas: Fair, not so cold this afternoon, tonight. Wednesday cloudy, warmer.

Star Robbed, Records Only Are Taken

The Star building was entered during the night, its filing cases were searched, and some circulation records, books, and correspondence files from the publisher's desk were stolen.

No money was taken, nor is any money involved, as the day's circulation receipts were posted from the department cash book to the company's general books and placed in the safe, Alex H. Washburn, editor and publisher, said today.

Stolen were: The city circulation control book, the circulation cash book, between 75 and 100 office receipt books showing daily turn-in by city and suburban carrier boys, and various mail galley proofs — orange - colored rolls of paper with names in type.

The Star began broadcasting over Radio Station KXAR at noon today the following paid "spot":

"The following cash reward is made by the Hope Star for information leading to an arrest in the robbery of the newspaper office early this morning.

"The Hope Star will pay one hundred dollars cash for any evidence or information leading to the arrest of the person or persons who entered the newspaper building between midnight last night and three o'clock this morning, stripped the filing cabinets and stole certain subscription records and files of letters, including letters from the publisher's personnal desk. Cash also will be paid for return to the Hope Star of any part of this stolen material, such as subscription receipt books and letters, identified by the newspaper name or the names of department heads employed by the newspaper. All inquiries will be held strictly confidential by Hope Star."

Mr. Washburn said the robbery does not affect the basic circulation records of The Star, the master record book being in the safe, posted through Saturday, March 11.

He said he personally checked the building and locked the front door at 12:05 midnight.

The front door was found unlocked at 3:35 o'clock this (Tuesday) morning by City Policeman Happy Dunn — who said some of the filing cabinets drawers had been pulled out, as was a drawer in the publisher's personal desk. From this latter drawer everything was taken.

The newspaper building's front door was given a new lock February 10, and new keys were issued to employes — but all these keys were accounted for. No windows had been forced, and it is believed entry was made through the front door.

City and state police, and the sheriff and prosecuting attorney are investigating today.

Expect Retail Hike Today on Coal

Pittsburgh, March 14 — — Retail price increases ranging up to 25 cents a ton on most grades of soft coal are expected today in the Pittsburgh area.

The Pittsburgh Post-Gazette said a survey after the recent soft coal strike showed retail dealers anticipate a 10-cent-a-ton boost in wholesale. prices by the Pittsburgh Consolidation Coal Co., largest producer here.

The coal company said an announcement would be made on its price policy. today.

Retail spokesmen, who said they did not expect any increases on stoker and prepared smokeless coal, pointed out they have absorbed one increase in drivers' wages and two in freight rates. These increases, coupled with the expected boost in the wholesale price of coal would mean a total jump in retail rates of about 25 cents a ton, they said.

Retail soft coal prices in the Pittsburgh area now range from $9.95 a ton to $10.50, depending on the grade.

Kiwanians to Rehearse Show Tonight

The Kiwanis Minstrel rehearsal will be held at 7:30 p.m. tonight at the high school and will be staged for the public Thursday and Friday nights, March 16 and 17.

A list of queen contestants carried the name of Betty Roberts and it should have been Patsy Roberts, a spokesman for the club said today.

The minstrel, an annual event, is given by the club with proceeds going to finance the Hope Youth center., a Kiwanis-sponsored organization.

McCARTHY CHARGES STATE DEPARTMENT OFFICIAL— Senator Joseph R. McCarthy, right, Republican from Wisconsin, opens his brief case at Senate Foreign Relations hearing in Washington. At left, is Haldore Hanson, State Department Official, who was cited by Senator McCarthy as having "pro-Communist procivities." as he appeared at a hastily-arranged press conference in Washington. (NEA Telephoto)

Court Turns Down Claim for Damages

Little Rock, March 13 —— An attempt to the Southern Newspapers, Inc., of Hot Springs to collect money for damages to a linotype machine in shipment was denied today by the Arkansas Supreme court.

In affirming a Garland county Circuit court ruling, the high tribunal said Southern Newspapers failed to comply with terms of a contract in filing a claim for damages.

The corporation publishes the Hot Springs Sentinel Record and the New Era. Amount of damages sought was not disclosed.

Court testimony showed that Mergenthaler Linotype company shipped a linotype machine to Southern Newspapers on Oct. 11, 1945. The machine arrived at Hot Springs Oct. 29, 1945.

An agent of the corporation accepted the shipment, paid the freight bill but at the time said the machine "was found damaged."

The newspaper publishing company then filed written claim for damages on Feb. 17. 1947. The claim was made against the Missouri Pacific railroad, which handled the shipment.

The Supreme court said the corporation failed to comply with provisions of a bill of lading which said claim for damages must be filed within nine months after delivery.

The court upheld payment of $4,460 to a Lincoln county farmer for damage to his cotton crop when neighbors sprayed insecticide on their land.

Howard L. Clayton had received the judgment in Lincoln County Circuit court against Clarence and Eugene Kennedy, who had their rice crop sprayed from an airplane.

The brothers contended in the lower court that they used precaution in spraying the rice. They said the insecticide was let loose from the plane on a calm day and that they were under the impression that it would not drift more than 60 to 75 feet unless carried by wind.

The Supreme court opinion, written by Chief Justice Griffin Smith, said that testimony indicated that Clarence Kennedy was warned that the insecticide would drift and it was poisonous to crops.

Man Who Blasted Plane Goes to Trial

Quebec, March 14 — (AP) — The bizarre murder case of J. Alfred Guay, charged with blowing up an airliner with a time-bomb to get rid of his wife for love of a waitress, goes to the jury today.

Twelve French-speaking jurors will make their decision on the fate of the 32-year-old Quebec jeweler after getting last instructions from Justice Albert Sevigny.

Guay has been called a "hypocrite with a diabolical turn of mind" by the prosecutor, who contends that he engineered the fatal crash. A Canadian Pacific airlines plane crashed Sept. 9, killing Guay's wife, Rita, and 22 other persons. Three of those killed were top American officials of the Aanaconda Copper company.

Both the crown and the defense closed their arguments yesterday.

In detail crown Prosecutor Noel Dorion outlined his charge that Guay murdered his wife to collect the $10,000 air-travel insurance on her life and to ease the way for his romance with a pretty 19-year-old waitress. Marie-Anges Robitille.

Labor Leader Given Prison Sentence

Washington, March 14 — (AP) — Harold Christoffel, former Milwaukee labor leader, was sentenced today to from two to six years in prison on a charge of lying to a congressional committee.

Christoffel was convicted last month for a second time on a perjury charge. A federal court jury found he had lied when he denied under oath to the house labor committee that he had ever been a Communist.

Patmos Junior Play All Set for Friday

"Who's A Sissy", a 3-act farce by Austin Goetz, which will be presented by the junior class of Patmos High school Friday night, March 17, at 8 o 'clock, is across section of small-town home life at its best and funniest.

The play is rounding into fine shape and will be ready for a top performance Friday night. Admission is 20 and 30 cents. The public is invited.

Garrett Named Business Manager of Senior Play

Burgess Garrett has been named business manager of "Our Town". Hope High school senior class play which will be staged April 6 and 7. His assistant will by Larry Moses.

The business committee includes Linda Foster, Marcell Smith, Billy Gunter and Richard Bruner. Other committees will be named later.

During their first month of operations from two airfields on Okinawa, Marine fighter pilots knocked down 209 Jap plines while losing only four in aerial combat.

Although Warned, State Dept. Deliberately Hired a Known Communist — McCarthy

Washington, March 14 —(AP)—Senator McCarthy (R-Wis) charged today that the state department gave a high post to a former Spanish Republican army officer, Gustavo Duran, although U.S. army reports labelled him a Russian agent.

Continuing to detail to a senate investigating committee his contention that the department has employed poor security risks, McCarthy also said that:

Dr. Harlow Shapley, American delegate to a United Nations commission, has been affiliated with at least 36 communist-front organizations.

A reported sexual pervert — he did not identify the person — had een "allowed to resign" from the state department in $948 and now is employed by the central intelligence administration at $12,000 a year.

Washington, March 14 —— Senator Brewster (R-Me) called today for the ouster of government policy-makers who have had what he called "Communist leanings." Senator McCarthy (R-Wis) meanwhile pushed new charges against state department workers, in the wake of denials from those he has already accused.

Brewster told a reporter he thinks that McCarthy has done well in a senate foreign relations subcommittee investigation. He said McCarthy has demonstrated already that there are some people holding responsible jobs who had questionable associations with Communist front groups. Other people disputed this.

"It seems to me that out of 150,000,000 people policy-making employes could be found about whom there is no question," Brewster said, adding:

"Instead, every time we turn around we seem to find a person in a policy-making job who used to have Communist leanings of some kind."

With denials of his charges coming thick and fast, McCarthy reported himself ready to make fresh accusations as the committee's hearing went into its fourth day. The Wisconsin senator had the witness chair for a morning session.

In the afternoon, the committee planned to hear Miss Dorothy Kenyon, former member of the American delegation to the United Nations, who was accused by McCarthy of lending her name to 28 Communist front organizations. Miss Kenyon has called McCarthy a cowardly liar.

Chairman Tydings (D-Md) disclosed the committee is ready to hire two men as counsel and will ask FBI Director J. Edgar Hoover to recommend four investigators.

Denials came from three persons named yesterday by McCarthy in testimony before the committee.

One of these, Stephen Brunauer, said he had never been a member of the Communist party and never told associates he was a member.

McCarthy had asked the committee to look into such reports about Brunauer, a 47-year-old scientist in the navy bureau ordinance.

Brunauer told reporters that between 292 and 1927 he was a member of the Young Workers league in New York, which he said advocated Communist principles. He said he had disclosed this connection to the state department loyalty board in a hearing for his wife in the summer of 1948.

The navy said he had been thoroughly investigated and that the investigation resulted in a decision there was not sufficient evidence to warrant a charge of disloyalty against him. It said he had made "noteworthy contributions in the field of explosives."

McCarthy had accused the wife, Mrs. Esther Caukin Brunauer, of having presided over a Washington meeting of the American Friends of the Soviet Union, an organization he said was cited as subversive by the attorney general.

Mrs. Brunauer, a member of the state department's United Nations relations staff, said McCarthy had been "badly misinformed." She added that she resents the charges.

"I am not and never have been and could not possibly be a Communist," she said in a statement. "It woulc be completely foreign to my character. I am a loyal American and a loyal officer of the state department."

The department said Mrs. Brunauer had been cleared by its loyalty board and added it is "satisfied she is loyal to the United States and does not constitute a security risk."

French Ban Soviet News Publication

Paris, March 14 —(AP)—The Soviet weekly New Times has been banned from all French territories.

A ministry of the interior official said the ban was ordered because of the publication's persistent attacks on France. New Times is distributed in many parts of the world in various languages.

U. S. Planes Increase Flight Range

Washington, March 14 —— The air force expects it's superfortresses to increase their reach by 1,000 miles and more as a result of tanker planes being added to nine groups of these medium bombers.

The Superfortresses are the B-29 of World War II and a more powerful version of it, the B-50. The strategic air command has nine groups of these planes. Recently the defense department announced that these groups were being reorganized to increase the number of bombers in each from 30 to 45, and to add 20 B-20 tanker planes to each group. Every one of the nine groups is reported to have part of its tankers now, the numbers ranging from one to 18 per group.

An air force spokesman said today that the combat radius of the B-29 bombers can be increased from 2,000 to 3,000 miles by a single refueling from tankers operating from the same bases. (The combat radius of the B-29 without refueling is 2,000 miles. That means it can take off with enough gas to carry its bombload 2,000 miles from its base, attack its target, and return home.)

If tanker planes should meet returning bombers on the way home and refuel them a second time, the air force officer said, the combat radius of the B-29s could be increased still more.

He expressed belief that the radius of the B-50s, which is 2,300 miles without refueling, could be increased in similar proportion by teamwork with the tankers.

A B-50 flew non-stop around the world last year, with air-to-air refueling by tanker planes stationed along the route. In war-time, however, the tankers would not be likely to venture over enemy territory, since they carry no guns.

Second Chance for Armchair Ad Experts

Who said opportunity doesn't knock twice?

The second in the current series of ad puzzles by Lion Oil Company appears in this issue giving you another chance to prove you know what's what in good advertising.

The puzzle appears on page 2 under the heading "Ad Puzzle: Can you pick the Ad rated best by Advertising Experts" Both ads in the puzzle express the same idea but in different illustrations and words.

After reading the ads carefully and checking both for general attractions and eye-appeal. Pick the one you think most effectively tells the story of Lion Oil Company's continuing efforts toward the economic improvement of the South. Then turn to page 6 and see how your judgment ranks with that of a group of eminent advertising men.

Don't feel down on your luck if you didn't agree with their opinion again this month. There were some dissenters among the experts. Furthermore, you'll get another chance at them next month.

Enlistments to Navy Are Increased

By ERNEST B. VACCARO

The Navy Recruiting service is again accepting a large number of volunteer enlistment each month, for both specialized training and general service. Ex-service men from all services, and new recruits have equal opportunity to enlist or re-enlist. All such enlistees will be trained at the naval training center, San Diego, California, other than ex-navy men. who may have their choice of direct assignments to either the east or west coasts. Ex-students and others having good educational backgrounds have excellent opportunity to qualify at the training center for one of the many training schools now operating to full capacity. Navy recruiters in Texarkana and adjacent cities encourages inquiries from both parents and prospective applicants to know your navy better.

Recruiters from navy recruiting station Texarkana will be in Hope each Monday 10 a.m. to 11 a.m. to interview applicants.

Coeducation in universities was virtually unknown in Japan before the war.

FOR SAKE OF MERCY — Mrs. Alice Blake of St. Clairsville, Ohio, calmly feeds her 15-month(old daughter shortly after she fired a shotgun blast at her husband, Edward Blake, 28, killing him instantly. An argument between the couple at their Clairsville home was the cause o fthe shooting. Mrs. Blake upbraided her husband for not donning his trousers in her presence. A struggle with a poker followed and afterwards Mrs. Blake fired a shotgun blast while trying to phone police. She is under arrest at the Belmont county jail. NEA Telephoto)

Another Truman Plan Likely to Hit Trouble

Washington, March 14 (AP)— At least one, and possibly another, of President Truman's 21 new reorganization plans appeared today to be headed for plenty of trouble.

Many members who hastily informed themselves of the contents of the plans submitted yesterday didn't like the proposal to strip Robert N. Denham, general counsel of the national labor relations board, of much of his present authority.

And, pending further study, some were inclined to take a dim view of the recommendation that the maritime commission be abolished and its functions turned over to the commerce department.

In support of the move to curb Denham's power, the President said the plan "will bring to an end the confusion which has resulted from divided responsibility."

Denham and the NLRB have differed frequently. The general counsel has called the board majority "pro-labor," while labor spokesmen have accused Denham of being pro-employer and have demanded his removal.

Winter Pours Snow Over Wide Section

By The Associated Press

Winter kept pouring on snow and cold over wide areas of the nation today.

Temperatures generally were not on the near-spring side and in most areas they were below normal or at seasonal levels.

The weather was chilly throughout most of the midwest and over the northeastern section of the country. The freezing line extended into parts of the south and touched northern Louisiana, west central Mississippi, northern Alabama, off of Tennessee and northwest Virginia.

No sub-zero marks were reported but a fresh batch of cold air from central Canada moved into North Dakota and spread into Minnesota. Some below zero readings were in prospect in northern Minnesota and the Dakotas tonight.

There was a little warming in the western Palins and northern and central Rockies but some chilly readings were reported in parts of California.

Snow fell over the New England states, New York, western Pennsylvania, West Virginia and northern Minnesota. Elsewhere skies generally were clear.

Justice Dept. to Move Against 149 Tax Evaders

Washington, March 14 — (UP) —The justice department disclosed today that within 48 hours it will complete a last-minute drive to indict 149 persons for evading more than $10,000,000 in wartime taxes.

Department officials said the 149 cases epresent complaints referred since Feb. 1 to U. S. attorneys throughout the nation for action before midnight tomorrow— deadline for prosecutions involving 1943 taxes.

Otherwise, the six-year statute of limitations would protect the evaders.

Officials emphasized, however, that the 149 cases involve taxes for other war years besides 1943. Individuals under investigation include many with the highest social and professional reputations — doctors, businessmen as well as previously unsuspected black marketeers.

Some of the indictments already have been returned.

Thirty four prominent businessmen were indicted in New York last night for allegedly trying to gyp the government out of $2,032,649.

U. S. Attorney Irving H. Saypol said that "most of the concealed income represents gains from wartime dealings in scarce commodities and services ranging from textiles to hotels and from plastics to panties."

Condemned Slayer Denied Mental Test

Little Rock, March 14 — (AP) — Prison Supt. Lee Henslee has denied a requested jury determination of the mental condition of [illegible]lis Edward Needham, condemned to die Friday for rape.

Henslee said state hospital physicians advised him Needham [illegible] sane.

He wrote Needham's lawyers he would not impanel a juryto pass on Needham's sanity, as they had asked.

Needham, a 26-year-old taxicab driver, was sentenced to death for rape of an eigh-year-old girl at Blytheville last April.

Under Arkansas law an insane persons may not be executed. An old law provides that the prison superintendent may conduct a jury hearing on a condemned person's sanity. Courts have held it is within the discretion of the prison official to decide whether such hearing is indicated.

Attorneys for Thomas E. Black, electrocuted last Friday for slaying a Little Rock nurse, unsuccessfully sought a jury determination of their client's sanity. The courts upheld Henslee in his refusal.

Warns Against Shooting Rural Lines

Persons interested in telephone lines leading out of Hope, especially to Oakhaven (S.E. [illegible] residential area) have made complaints to the officers that someone is shooting and damaging the telephone lines. This is a serious matter and a violation of the law. All interested persons are notified that thee law will be enforced and offenders prosecuted. Please desist. Claud H. [illegible], Sheriff; Royce Weisenberger, Deputy Pros. Atty.

Blevins Legion Post Sponsors Musical

The Larry Crabbe Show from Shreveport, La. featuring a group off radio stars will present a program in the Blevins High school gym Thursday night March 16 at 7:45 o'clock.

This musical program is being sponsored by the Moore-[illegible] American Legion Post No. [illegible] Blevins. The proceeds from the show willgo to the building fund for the new Legion Hut which is now under construction. Arrangements have been made for school buses to run and the public is invited.

Film to Be Shown Wednesday at Bethel AME

There will be a film "Go Down Death" at Bethel A. M. E. church Wednesday [illegible] 7:30 o'clock. The program [illegible] benefit sponsored by the [illegible] trustees headed by [illegible]

Signing of [illegible] Oleo Bill [illegible] Mean Change

Washington, March 14 —(AP)— If President Truman signs into law the bill which congress just passed on oleomargarine its effects will be felt in a lot of other fields besides margarine.

Under the bill the government removes certain restrictions on margarine but puts others on it. The federal trade commission is given much of the job of seeing the restrictions are lived up to.

If any handler of oleomargarine violates the restrictions, comes into conflict with the FTC, and loses, he must stop. If he doesn't the bill sets up a penalty the government can impose on him, a fine But—

This bill, although dealing primarily with margarine, also provides the exact same kind of penalty for people in other kinds of businesses policed by the FTC.

If they lose in a fight with FTC over government restrictions that apply to their kind of business and then continue to be violaters, the penalty that applies to a margarine dealer applies to them.

Here are some examples of other kinds of business dealings, besides oleomargarine, where the FTC can step in:

False advertising— A firm falsely advertises that its toothpaste can cure certain kinds of sore gums.

Boycotting— A group of firms in an industry gangs up on some other member of it. For example: A dozen wholesalers agree among themselves not to handle the goods of a certain manufacturer because, besides selling to wholesalers, he's been selling to retailers, too.

Commercial bribes— A paint manufacturer goes into a furniture plant and, instead of legitimately trying to persuade the head of the firm to use his paint, bribes the foreman to use it.

Full-line forcing— A manufacturer, call him Smith, tries to force a storekeeper to buy all Smith's products and none from anyone else.

This is the way the FTC. goes through with a case that involves any of the examples given above as well as oleomargarine, since the new bill doesn't change the steps to be taken but only th[illegible]

Th FTC checking on Jones' big electric sign, decides he is falsely advertising his product [illegible] him to sop.

He Refuses. The FTC makes charges against him [illegible] hearing is held. There Jones and his attorneys can present his case.

If the FTC then decides he's all right and isn't falsely advertising, that ends it. But—if the FTC rules against him, he is given 60 days in which to change his sign to the truth or take it down.

If Jones still wants to fight, he can go into U. S. court. If the court rules in Jones' favor and against the FTC, that's the end of it. But—

If the court upholds the FTC, by ruling against Jones, the court then orders him to get rid of his false advertising. This is where the penalty comes in.

Under the present law, if Jones disobeys the final order to stop his misleading advertising, he can be fined up to $5,000.

For example: Say Jones continues to show his sign for 90 days after the court order to him to take it down. He can be fined up to, but no more than, $5,000, total. Or, one $5,000 fine for 90 days of disobedience.

That's the present law. But the bill, in it becomes the new law, sets up a lot stiffer penalty, For example:

For every day he continuest violate the final order, Jones can be fined up to $5,000 a day. For example: Say he disobeyed for 90 days.

If he were fined $5,000 a day for every day of disobedience, his fine would be $450,000. Federal courts, not the FTC, will decide the size of fines.

(Note: The maximum fine under the bill is up to $5,000 per day. There's no minimum.)

"FRANCIS" WINS "YAKADEMY AWARD"—"Francis," the movies' talking mule, got the business from the Harvard Lampoon in ceremonies at Cambridge, Mass. The Lampoon awarded "Francis" a "Roscoe" for being the only jackass in Hollywood without a streak of ham in him.

Mrs. Maden Says She Does Not Remember

Frankfurt, Germany, March 14 —(AP)—In a faint, sobbing whisper, pretty Mrs. Yvette Madsen testified in her own defense today that she could remember nothing of the gunshot that killed her flier husband last Octobr.

On trial for the murder of her husband, Lt. Andrew E. Madsen, the 22-year-old brunette has pleaded innocent by reason of insanity.

"I think I was drunk," Mrs. Madsen testified while telling of a party which preceded the shooting at the couple's home. She said she couldn't remember the "insult" at her Brooklyn accent which the prosecution claims drove her to shoot down her husband.

With her head down and shaking from sobs, Mrs. Madsen told of returning alone to her home and finding a gun while looking for some sleeping pills. She said she heard the doorbell ring and her husband came in.

"What happened?" Defense Counsel Elmo Gower asked.

"He looked at me," Mrs. Madsen said. "I wanted to talk to him."

"Do you remember the gun going off?" Gower asked.

"No," she replied.

Then with shoulders shaking convulsively, she burst into a half-audible reply which was lost to the three judges sitting in U. S. District court. Mrs. Madsen was given smelling salts and tried to speak again.

The pale brunette broke down completely and the court was recessed briefly while a women's air force guard administered smelling salts.

Gower, resuming questioning, suddenly asked:

"Yuvette, did you shoot your husband?"

"I don't know," Mrs. Madsen sobbed.

"If you did shoot him, did you mean to?" Gower asked.

"No, I lived Andy," she replied, still crying quietly.

Earlier she was questioned about an argument witnesses said she had with another officer at the party. Witnesses said the officer, who spoke with a southern drawl, twitted her about her Brooklyn accent. Mrs. Madsen was said to have slapped the man's face and left the party without her husband.

"I can't remember it even at all," Mrs. Madsen said in reply to questioning.

Six-Year-Old Gets Life Saving Medal

Canton, O., March 14 —(AP)— Little Vivian Sue O'Brien could proudly flash a silver life-saving medal today for her heroic rescue of a playmate last January.

Vivian, who just turned six Friday, was presented the award at the O'Brien home last night by the Stark County Firemen's association. Karl Lehr, association president, said the organization would recommend the girl for the National Carnegie Life-Saving medal.

The little girl rescued Johnny Christman, six, also of nearby Bolivar, from a water-filled mine shaft there after he plunged through a thin layer of ice. She threw him a cable and held on while he pulled himself to safety.

Worker Killed When 50-Tons Fertilizer Falls on Pair

Muskogee, Okla., March 14 —(AP) Fifty tons of commercial fertilizer tumbled down on two workmen last night, killing one and critically injuring the other.

Ralph Hutson, 27, was crushed to death by the hard phosphate, potash and nitrates. Bob Bernhardt 32, suffered two broken legs and possible internal injuries. Both were from Muskogee.

The cave- in came as the two bored holes in a huge mound of hard-packed fertilizer at the consumer cooperative association plant. The action was preparatory to placing dynamite sticks inside to blast the material loose so it could be loaded and shipped.

The victims were trapped inside a 50-foot high wooden bin. As they worked they stood atop a bulldozer. The huge machine was wrecked.

It is estimated that 1,500,000,000 baby chicks are hatched annually in the United States, the majority of them in spring.

It Was the Night Before— You and Everyone Else Had Better File That Tax Return

By ED CREAGH

New York, March 14 — — "If only you wouldn't put everything off 'til the last minute," my wife said. "If only . "

"Shhh," I said. "How can I concentrate on line 6, page 3?"

"Three months you've had to do this. But no. You have to wait until practically midnight, March 15."

"Shhh."

"I don't know how you what's that you said? Line 6, page 3?"

"Uh-huh."

"You may not have noticed, eagle eye, but line 6, page 3, is to be filled in by single people. You're married. Remember."

"Look," I said. "if you know so much about this . "

In other words, the production going on at our house was "income tax return night." Subtitle: "It happens every year." Maybe you've had the same experience yourself.

Better late than never is my motto. Suppose I sent my return in early and then got run over by a truck. Suppose (hah) congress repealed the income tax after I'd paid mine. Suppose

"Well," I said, a few minutes later. "This is a pleasant surprise. I figure the government owes me -6,451.'8."

"What "

"Wait a minute. I added wrong. It's only $6,451.76."

"Let me see that," said my wife. I handed it over with the confident air of a bridge player trumping an ace. "Oh, no," my wife said. Her voice trembled. "Oh, no. Not even you."

"Ah " did I make a mistake?"

"Look. Look at 8 A by tax withheld (in item 2 above.)' "

"Oh," I said. "I guess I didn't read that right, did I "

"Hardly. What you've put in there was your compensation before payroll deductions. That throws the whole thing off."

"It does, doesn't it" I agreed. "Well, that's what comes of working late at night. I'll just put this aside 'til tomorrow. . . ."

"You'll do no such thing "

"Well, gosh. It isn't due until midnight tomorrow."

I looked at my wife. She looked at me.

Slowly, she reached over and took form 1040 from my unresisting fingers.

"You win," she said. "I'll do it for you. Go along to bed. Do you know," she called after me, "what keeps me going from year to year?"

"Nnnnh?"

"It's the hope," said my wife, "the dim hope that someday, some year, you'll make out your income tax return all by yourself."

Czech Foreign Minister Resigns

Prague, Czechoslovakia, March 14 —(AP)—Foreign Minister Vlado Clementis has resigned. Deputy Premier Viliam Siroky has been named as his successor.

The official announcement today gave no reason for the resignation of Clementis, a Communist journalist and lawyer who succeeded the late Jan Masaryk as foreign minister in March, 1948.

(The resignation came on the heels of reports that a wholesale purse is imminent in the ranks of the Czech Communist party on charges of Titoism. It gave to speculation that Clementis would be brought to trial on charges that he had not been faithful to the brand of communism demanded by Soviet Russia as opposed to the "independent" communism of Premier Marshal Tito of Yugoslavia.)

The official Czech news agency said that Clementis' resignation had been accepted by President Klement Gottwald of the recommendation of Premier Antonin apotock. Gottwald aws premier two years ago when he appointed Clementis.

Clementis was one of the last links between the present Communist government and the old exile Czech government whidh Eduard Benes headed in London during the war.

The experts say it is possible for a hen to lay two eggs in the same day, although she generally lays only one.

Here's How Advertising Experts Rate Lion's Ads

When the two Lion advertisements shown on another page of this newspaper were submitted to a group of professional advertising men and women, the majority rated the advertisement headed, "Everybody Has His Say" as more effective than the "Home Folks" advertisement.

Primarily, the majority made this choice because of the human interest of the illustration showing the youngsters arguing with the umpire. It was generally felt that this type of illustration was almost "sure-fire" in getting attention.

The advertising jury made little choice between the two ads in other respects. Copy in both seemed to tell the story properly, and both ads made some mention of the products of Lion Oil Company. The more detailed list of products in the "Baseball" advertisement was given as an added reason for its choice.

Perhaps you disagree with the experts. If so, don't feel disappointed. They were not unanimous in their choice.

Look for another Lion Ad Puzzle next month.

Nash sales growth since the war has been more than 4 times as great as that of the Automotive Industry as a whole...*

WHY NASH?

*In the four post-war years just ended, Nash sales have increased 95.7% over the same period pre-war, while the industry registered only a 21.3% gain, post-war over pre-war.

Why Nash? Because Nash has consistently led in the power parade—builder of valve-in-head engines for a third of a century—a leader in high compression.

Because today Nash alone builds a valve-in-head engine of 7.3 to 1 compression ratio that utilizes regular gasoline.

Why Nash? Because Nash was first with automatically-controlled, pressurized heating and ventilation, probably the greatest single health, comfort and safety feature of the modern automobile.

Because today's Nash Weather Eye Conditioned Air System is still first in efficiency and in safety—with fresh, untainted air drawn from outside, above the engine compartment.

Why Nash? Because Nash has been first and foremost in advocating—and delivering—greater gasoline mileage.

Because Nash today builds a big full-size car that delivers more than 25 miles to the gallon at average highway speed.

Why Nash? Because Nash was first to mass-produce the Unitized, welded body-and-frame car that is more rigid, durable, safer and free of squeaks and rattles.

Because today, 12 billion owner miles have proved that Unitized Nash Airflyte Construction has set a new standard for long life and economical operation.

Why Nash? Because today's Nash Airflyte cars by scientific wind-tunnel test have been proved to have 20.7% less air drag than the average of 10 other cars tested—with noticeably less wind-noise, less fuel consumption, and noticeably greater stability.

Why Nash? Because Nash was first to attack the problem of rust by Bonderizing and by more durable baked enamels.

Because today all sheet metal parts of a Nash Airflyte are many times more resistant to wear and fading.

Why Nash? Because today's Nash Airflytes offer more combined passenger and luggage space, dollar for dollar, than any other car.

Why Nash? Because Nash has been years ahead in the development of the car interior. First to have the curved, one-piece windshield on all models, and Uniscope—and today is the only car offering an Airliner Reclining Seat and Twin Beds.

See Your Nash Dealer Today—take an Airflyte ride and you'll discover why Nash cars are the Year's Greatest Values!

ristian Church uncil Meets

e Women's council of the First tian church met in the ch parlor at 3:30 with Mrs. Oliver Adams, president, presiding.

The meeting was opened with the Lord's Prayer after which various items were discussed and approved. A pre-Easter project was inaugurated with each one present receiving an envelope to be taken home to put money in. This will be a month of giving and living in which inactive members and shutins will be called on. The project will end with a tea following the Good Friday program. The Good Friday program was also decided on, and it will be held in the church auditorium at 2:30 Friday, April 7.

A new circle was organized with its membership being drawn from inactive members and shutins. It will be called Circle No. 4 with Mrs. Fonzie Moses as the leader. The president announced the State Convention dates of April 24-26 and urged that everyone try to attend at least part of it. Circle No. 1 won the president's dollar for the most members present.

Mrs. Wm. P. Hardegree was the program leader.Afte r a song which was sung by the group she introduced Mrs. Ted Jones who gave a devotional entitled My Kngdom Is Not OfThi s World" based on the 18th chapter of John. This was followed by a bery interesting article on "Home Evangelism" by Mrs. George Wright. The meeting was adjourned with the council benediction.

WSCS Holds Mission Study

The WSCS of the First Methodist church met at the church at 3 p.m. Monday with the president, Mrs. L. B. Tooley. presiding. During the business session, appreciation was expressed to Miss Mamie Briant, and Mrs. P. H. Webb, for repairing the church linens, and to R. E. Jackson and his students for making boxes for the silverware.

Mrs. Leon Bundy, chairman, reported on the Christian Social Relations Committee circle 2 and 3 tied in the circle count. Mrs. W. A. Franks was introduced and welcomed as a new member of Circle 3.

The theme of the beautiful devotions led by Mrs. C. D. Lester was "A Life Lived With God" and was based on Psalm 91. The fourth mission study on Japan was given by Mrs. L. B. Tooley. The meeting closed with the WSCS benediction.

WMS Royal Service Program Held Monday

The WMS met at the First Baptist church at 2:30 p.m. Monday for the Royal Service program. Circle Three, Mrs. H. E. Thrash, program chairman, presented the program using as the topic "Am I My Brother's Keeper"? Mrs. James Birkhead gave an inspiring devotional entitled "We Cannot But Tell" basing her remarks on John 1:43-49, and Acts 4; 5-20.

Mrs. A. T. Jewell, Mrs. J. T. Bowden, Jr., Mrs. Otha Taylor, Mrs. Joe Rider, Mrs. S. A. Whitlow, and Mrs. L. F. Higgaso leader of the Ann Wollerman circle was presented a corsage for having the most members present.

During the social hour, spice tea and cookies were served to 40 members.

Coming and Going

Mr. and Mrs. Bob Graham, and Mr. and Mrs. Joe B. Greene spen Sunday with Mr. and Mrs. R. C. Elkins in El Dorado.

Miss Laura Ann Garanflo of the University of Arkansas, Fayetteville spent the week-end with relatives and friends here.

ADVICE TO TROUBLED WIVES

Going Through Change of Life

Afraid that edgy nerves, your nagging, jangled, upset feeling may cause marital discord? Forget it! Thousands of wives are delighted at their increased energy and renewed zest for life, thanks to Cardui.

A grand stomachic tonic, Cardui helps Nature build resistance against the strain of functional disturbances. Being also an antispasmodic, Cardui encourages a soothing sense of calm and confidence, so valuable in helping dispel tension and anxiety resulting from periodic pain, often exaggerated at this time. For an entirely brighter outlook on life, try Cardui!

Sgt. Warren Short Attends 4-Day Training School

Sergeant Warren Short, commander of the local Army and Air Force Recruiting Station, has just returned from a four day school held in Texarkana, Arkansas at the Recruiting Main Station.

The four day training school in all phases of military recruiting work was under the direction of Captain Irby M, Bordelon, a commanding officer of the Texarkana Area, with assistance of instructors drawn from Red River Arsenal, located near Texarkana and the supervisory personnel from the Tri-State Recruiting District Headquarters in Little Rock, Ark.

Robeson Not to Appear on Radio

New York, March 14 —(AP)—Paul Robeson's scheduled appearance on Mrs. Franklin D. Roosevelt's televison show has been called off.

A National Broadcasting company spokesman said the left-wing Negro singer's scheduled appearance was "indefinitely postponed" and probably will be cancelled.

The Progressive party, which Robeson was to have represented on Mrs. Roosevelt's weekly forum next Sunday, called the action "censorship of the air."

It had been announced at the close of Mrs. Roosevelt's program last Sunday that Robeson would be a guest next Sunday in a discussion of "The Position of the Negro in American Political Life."

An ABC spokesman said yesterday "an influx" of telephone protests followed the aennouncement, and that Elliott Roosevelt and Martin Jones, co-producers of the show, had decided to postpone the racial program indefinitely.

Lateer, Charles R. Denny, NBC executive vice president, said:

"We are all agreed that his (Rozeson's) appearance would lead only to misunderstanding and confusion, and no good purpose would be served in having Robeson speak on the issue of Negroes in politics."

Denny said the announcements of Robeson's appearance had been premature.

Elliott Roosevelt and Jones declined to comment. Mrs. Roosevelt referred all questions to them.

Robeson, an outspoken sympathizer with the Soviet Union, has been bitterly critical of U .S. foreign policy and civil rights practices. At Robeson concerts near Peekskill, N. Y., last summer, more than 100 persons were injured in riting between concertgoers and veteran groups and other protesting Robeson's appearance.

Artificial Leg Never Used by Cancer Victim

Oklahoma City, March 14—(AP) — For most of his life Billy Russell May Jr., felt little but the ravages of cancer.

Surgeons at Mayo clinic amputated his left leg at the hip in an effor to halt the rapid spread of the disease. Employes of a cab company here raised $305 to buy the 3-year-old child an artificial leg. It was never used.

Assault Charge Filed in Shooting at Texarkana

Texarkana, March 14 — (AP) — A charge of assault to kill has been filed in connection with an early Sunday shooting here.

The charge was lodged against Frank huford, 44, for the wounding of Ralph Nelson, 32, a salesman who is in a serious condition at a hospital. Both men live in Texarkana.

The oldest radio network. the National Broadcasting Company, was formed on Sept. 9, 1926.

DOROTHY DIX

Incipient Tragedy

Dear Miss Dix: Do you think it is really possible for a single girl to be in love with a married man? I am just acquainted with a man in a business way, but the more I see of him, the more I want to. Being in constant touch with him every day I find myself fallling more deeply in love. believe this feeling is mutual, as I have heard from other people that he feels this way about me. He has asked me to have dinner with him several times, but up to the present I have declined. But it is very hard to refuse when I would love so much to be in his company. What shall I do?

PUZZLE DGIRL

Answer: It is not only possible for a single girl to fall in love with a married man. It is a catastrophe that happens every day. There is nothing about the marriage ceremony that lessen's a man's attractions, or that keeps a woman's foolish heart from setting itself upon him.

Oh, it is easy enough for a girl to fall in love with a married man, but it is almost always disastrous to her. Not once • in a thousand times does it bring her anything but sorrow and scandal, and blasted hopes and disillusion, and in the thousandth case, when the married man divorces his wife and marries her, her happiness comes to her tainted with the memory of another woman's tears, of a wrecked home and orphaned children.

Would Amuse Himself

In the great majority of cases in which a married man makes love to a girl he does it, simply to amuse himself. He has no thought of divorcing his wife, of breaking up his home, or giving up his children, and, most of all, he has no intention of being involved in a scandal that will do him no good either socially of financially.

However it happens, the girl who falls in love with a married man bring misery on herself because she has to suffer the fiercest jealousy that a woman ever knows — that of having the man she loves belong to another woman. Another woman bearing his name, standing at his side on all public occasions, spending the money that she perhaps helps him earn. And she knows the bitterness of the hope deferred that makes the heart sick in waiting, waiting for some miracle that never happens to bring her love to a happy frution.

Often a girl falls in love with a married man without knowing that she is doing it and the revelation comes too late to avert the tragedy, but any young woman with a grain of sense in her head who finds herself slipping and beginning to think of her boss as a lover instead of an employer should throw up her job and flee from him she she would from the greatest danger that could possibly menace her. It is her only salvation.

Dear Miss Dix: I am 35. Have been married ten years. No children. My wife is fine in every way. Good-looking, attractive, talented, a wonderful pal and I have the highest respect for her. But I am in love with another woman. I fought against this love so hard that I became a nervous physical wreck. When I was at the end I gave in, and I never knew such happiness was possible as I have experienced with her. That was three years ago. My sweetheart feels toward me as I do toward her. Life to each of us without the other is unthinkable. What must I do? I want to do the honorable thing, but hesitate to hurt my wife who has always been loyal to me.

E. K. H.

Answer: The only honorable thing to do is to go to your wife and tell her how you feel about her and the other woman, and ask her to give you a divorce. In leading the double life that you are now you are making everybody concerned miserable and achieving no good to any one.

Many men and women meet with these disasters. They are not philanderers. They have a high sense of honor and duty toward the good men and women to whom they are married. They honestly thought they were in love when they married and they meant to be faithful to their marriage vows. Then suddenly some woman or some man comes upon the scene and they find out for the first time what love really means.

It is even possible for a man or woman, who sacrifices himself or herself for a nunloved mate to make that mate happy by going on with a marriage out of which everything has one that makes for happiness in marriage? I think not, and I think that most men and women who know that their wives and husbands have come to love some one else refuse to hold them against their wills. There is no comfort in having the corpse of a dead love around the house.

DearDorothy Dix: My brother, aged 9, intelligent and a fine little fellow in every other way, has been taking money out of his brother's purse. My mother never gives him a penny and when he earns any money she takes it away from him. Do you think that his not having any spending money is making him a thief? What can I do?

DESPERATE

Answer: Undoubtedly the child steals in order to get a little spending money. Why don't you give him a little allowance so that he may not be so tempted beyond his power to resistance? But keep on trying to instill the principles of honesty in him.

Because of the many tasks to be performed it takes a staff of 74 to produce an average variety hour on television.

Important Harmone Find Announced

New York, March 14 — — A new, cheap way to make some of man's scarcest, costliest hormones has been discovered in cancer research.

It is done by keeping tiny pituitary glands alive in glass houses. The glands are taken from rats. But they keep living and growing in a special fluid bath.

They become living factories, delivering tiny amounts of hormones three times a week. One hormone is Acth, a wonder drug for arthritis and other diseases. Another hormone stimulates the sex glands to produce sex hormones. Another controls body growth. Another governs the thyroid gland.

These fantastic factories are pale-pink, and about the size of a pea. They have been kept alive and growing as long as 20 weeks, and probably can be kept producing even longer.

The amounts of hormones harvested from them are small. The method still is experimental, but it offers hope for practical mass production of these hormones, says Dr. Leonard, Schelle, surgeon general of the public health service.

Dr. Scheele described this medical achievement last night in speaking at the premier of a new film on cancer research. The half-hour film, "Challenge — Science Against Cancer," was produced jointly by the National Cancer Institute and Canadian Department of National Health and Welfare.

The pituitary gland is a master gland of life. It lies at the base of the brain, and produces hormones that regulate other glands. These include the sex glands, the thyroid, and the adrenal glands.

One of the newest words is "radiothermics", defined as the "application of heat generated by radio waves" such as is used in molding plastics.

By used of the electron microscope, tiny objects can be enlarged as many as 100,000 times and easily photographed.

Tulsa, Arkansas to Return to Turkey Day

Tulsa, Okla., March 14 — The University of Tulsa and the University of Arkansas are going back to Thanksgiving for their annual football game.

Through 1947 the two schools played here 15 straight years on Thanksgiving day. The last two years the game has been played in Arkansas on Saturdays.

Dr. C. I. Pontius, Tulsa president, announced this year's game had been moved from Nov. 25 to Thursday, Nov. 23, because of public demands that the Thanksgiving date be resumed.

T. U. Athletic Director Ed Morris said the football series will continue on a home-and-home basis.

Kentucky Is Afraid of CCNY

New York, March 14 (AP). —What Coach Adolph Rupp calls the best potential quintet in Kentucky history — he's already had some of the nation's greatest — expects plenty of trouble tonight from darkhorse CCNY in the National Initation basketball tournament.

If they're as good as the Bluegrass baron believes, the Kentucky five, made up mostly of sophomores, has a chance to crack a mark set by Wildcast wonder teams of recent vintage. Rupp's boys won the NIT in 1946 and the NCAA in 1948 and 1949.

But classy Ed Warner will have plenty to say about Kentucky title hopes tonight. The Flexible 6-foot 2 1-2-inch Negro turned in the tournament's best performance Saturday in leading CCNY's rout of defending champion San Francisco.

The Wildcats, seeded second behind Bradley, are four-point favorites to whip the metropolitan five. Kentucky had advanced to the quarter-finals on a bye.

Duquesne plays La Salle in the 8 p.m. (EST) curtain-raiser. The Pittsburgh Dukes, although third seeded, rate three points under La Saturday. LaSalle is unseeded.

In last night's games Bradley and St. John's overpowered two fast-rolling opponents in the middle of the second half; then went on to win comfortably.

The Peoria, Ill., Braves, rated the nation's No. 1 team in the final Associated Press poll, defeated Syracuse, 78-66. St. John's tamed Western Kentucky, 69-60.

Both losing teams had taller boys who wore out against the better-monned victors.

Tonight's winners meet in the other semi-final match Thursday. The final is Saturday.

HEAVY CASUALTIES HIT PARATROOPERS—Of the 82nd Airborne Division paratroopers seen descending in the photo above, one man was listed as missing, probably killed, and 65 suffered broken limbs and other serious injuries. The percentage of injuries, about 6 per cent, was much higher than usual in training jumps. The parachute drop was part of an invasion of Vieques Island near Puerto Rico, during the largest peacetime maneuvers ever held by U. S. armed forces.

HOW TO TAKE A NEWSPICTURE—News photographers trample one another at the door of a U. S. marshal's van in New York to make pictures of Valentin Gubitchev on the way to prison after he and Judith Coplon had been convicted of espionage conspiracy.

Leopold Gets Slim Margin in Belgium

Brussels, March 13 —(AP)— gians voted by a narrow m ity yesterday in favor of r ing King Leopold to the t from which he has been b for surrendering to the Ger in World War Two

But the slim margin of app — 57 per cent — threatene touch off a political crisis if Leopoldists actually tried to the handsome monarch back exile.

A key question was wheth liberals would join the pr poldist Social Christians (lics) in asking parliament scind its ban on the king's from exile in Switzerland.

The referendum yesterday only an advisory vote. Parli stil must decide if Leopold come back

Also to be determined was er the monarch would asked, or whether he would cate. He had said he would cate if he got less than 55 pe of the vote.

Belgium voted this way:

Yes (for Leopold's return 933,382

No (against his return), 881.

There were 151,477 ballot clared invalid.

The interior ministry said king had carried 21 of the try's 30 districts and seven nine provinces

The final officials returns Leopold 57.68 per cent of the ballots.

The Liberals have said would not accept the king a he did not get a majority in of the country's three Flanders in the north, Brab the center and Walloon in south Political observers we sure, however, the Liberals stand by this statement.

In Flanders Leopold yes was strong, with a majority per cent. In Brabant, where sels is located, his majorit 50.2 per cent. In the Frenching Walloon area, though h ried two of the four provinc came out with only 40.2 per the total vote.

Should Liberals and Social tians join, the coalition co mand the parliamentary m necessary to vote the king to his throne. But some obs thought the Social Christians the Liberals opposed the king turn, might call for parlia dissolution and hope to win plete control of both hous the subsequent election.

Any further steps in the favor were expected to ru fierce opposition from the ists, who waged the bitter referendum fight against Le Already there were reports strikes were likely to develop in such Socialist strongho Mons and Charleroi in sou Belgium.

SPORTS ROUNDUP

By Hugh S. Fullerton, Jr.

Ithaca, N. Y., March 14 — — Warning to Cornell's football opponents: Lefty James is cooking up a few offensive ideas that may have you dizzy next fall. . . The lean Cornell coach is a guy who seems fascinated by offensive maneuvers and he says he got that way when he was chief scout for Carl Snavely and for ten years did nothing but set up defenses. . . The nature of these ideas is a carefully guarded secret except that Lefty says: "Our spring practice will be completely crazy while we're experimenting . . . You know," he adds, "you seldom see straight single wing or T formation stuff any more. The coaches add something here and change something there and football is just a series of spread formations. Maybe we'll just spread them a little bit more. I won't know until I see what the boys can do."

Guys Who Think

James, a great admirer of Pop Warner, tabs him as the No. 1 coach of all time because "he came up with more things that made them change the rules—he did more than anyone else to change football". . . Lefty also puts A. A. Stagg, Fielding Yost and Bob Zuppke among the "great" coaches, but he doesn't include Knute Rockne. . . "Rock was a great organizer, not an originator," he explains. . . On second thought, Lefty adds Ralph Jones, the "idea" man in the triumvirate which brought out the modern or "Bears" style of T formation play. . . "But Warner was the greatest of them all," James concludes. "Some pro-club ought to put him on its staff as an advisory coach. He's still thinking way ahead of the rest—so far ahead that it would take a good pro club to use the stuff he dreams up."

Embarrassing Moment

Reddest face seen during the recent Eastern college boxing tournament at Syracuse didn't belong to some kid who left himself open to a right cross. . . Ike Gilbert Penn State athletic director, was the victim. He encountered a "prospect" who had visited the state campus and while they were exchanging greetings, the guy was sponsoring a similar visit to Syracuse came along, wearing a very suspicious loo. . . "And all I was doing was talking about the weather," chuckled Ike. "I was telling the boy: Loo at that deep snow outside. We don't have any of that down at Penn State."

Fights Last Night

By The Associated Press

Newark, N. J.— Tony Pellone, 150, New York, outpointed Tommy Ciarlo, 147 1-2, Waterbury, Conn., (8).

Chicago — Bobby Jarvis, 147, Chicago, outpointed Bob Neal, 147, Monaca, Pa., (10).

Americans ate an average of 80 pounds of beef, 70 pounds of pork and six of lamb and mutton in 1948.

FINGERPRINTS Don't Lie

By Rupert Hughes

Copyright 1950 by Rupert Hughes
Dist. by NEA SERVICE, INC.

THE STORY: After Azalea Palmer found her father Wendell Palmer murdered at his home, police arrest her fiance, the young sculptor Paul Moody. Palmer had opposed Paul's courtship of Azalea in many ways and a short time before the murder neighbors had seen Paul visiting the Palmer home. Paul denied violence and said he left Palmer in good health. Police believe the case is airtight against Paul because his fingerprints were found on the base of the desk phone which was used to batter Palmer's skull. Azalea goes to private detective Martin Queripel with a plea to clear her fiance of the murder charge. Azalea's plea moves the detective to accept the case. He warns her, however, that if his investigation proves that Paul is guilty, he will not protect Paul or withhold the evidence from the police. He asks Azalea to tell her story.

* * *

XIV

AZALEA PALMER was seated now in one of the chairs of Martin Queripel's office as she continued her story of her engagement to Paul Moody.

"When Paul finished sculpting the head portrait of me—and it took him ever so long—I wanted to buy it," she went on. "I made my father send him a big check. Paul returned it torn in two with a very sweet letter." She paused. "That's the man they accuse of murdering my father."

"And then?" Queripel asked.

"Paul's act made my father more furious than ever. He said it was all a clever trick to get all of his money by winning me. Like a fool I told my father that money meant nothing to Paul except as a way of supporting me and his art. We had talked of marriage, but Paul was hesitant. He felt sure some day he would get a big commission that would pay enough to support us both comfortably. He didn't want luxury for himself, only comfort for me.

"And now they try to prove him a murderer! They—even you—suspect him of trying to blackmail my father into giving him money, and then killing him, because my father refused to be blackmailed. And don't imagine that he wasn't threatened with it more than once.

"Why don't people use their common sense? What good could it have done Paul to kill my father? It could only have meant what has happened now just because he's suspected of it. He couldn't go on with his career. He couldn't have me—or anything. Oh, God, it can't happen so! I won't let it! What a miserable world it is! My poor dear Daddy is beaten to death, and now they want to rob Paul of his life and put an end to all the glorious works of art he has waiting in his soul. Killing Paul wouldn't be merely killing a man; it would mean murdering a whole world of beauty.

* * *

"THE worst of it all is that it should happen just as everything was clearing up for us. For suddenly, out of a clear sky, there came the chance of Paul's whole existence. That big National Electric Company decided to put up a huge building to house all its western offices; and the architect designed a great arched entrance with a big bronze group of a dozen or more figures.

"There was a competition, of course; and a dozen of the best American sculptors sent models. Everybody, even some of the rival sculptors, admitted that Paul's design was the best. Did you see it?"

Queripel shook his head. "I don't go in much for art."

"Well, even the Philistines would have loved it. It was inspiring—from Benjamin Franklin drawing the lightning out of the sky to the surgeon, and the soldier, and the young mother, the deaf man, the aviator—idealized fig —all representing what electri has done—as Paul said—to man from the dark and to mu him almost into a god.

"Well, it would have meant a ing a great work of art to town—which needs it so ba To Paul it would have meant f and—"

For the first time Azalea's tures were softened into a of reverie. Her eyes were those bewildering diamonds, now the multi-colored irises rainbows after rain. Then showered them again.

* * *

SHE bent her brow to her h for a moment while she fou off the throes of defeated happin that writhed through her flesh poisoned her soul. Looking do at her, Queripel found him tempted to leap up and shout protest against the torture of s a young angel.

"Stop crying! I'll get him for you. He may be guilty as h but, since you want him, I'll him for you!"

That was what his soul cr aloud within him; but his vo was still, and he made no mo ment beyond reaching out his ha and clenching hers.

She seized on it as if it w a rope let down to one drowni in a deep well. And she seem to climb upward on it into for she lifted her head and sh off her tears till he felt them his wrist. The grimness of bat that sat so quaintly on such de cate beauty glowed again in h eyes as she said:

"Who, do you suppose, crush all Paul's hopes and mine? Wh do you suppose, had the decidi vote and prevented Paul fr having that commission award to him?"

Queripel gasped: "It wasn couldn't have been—"

"Oh, yes, it was!" she cri "It was my father. I begged h to see the model, how beauti it was, how ugly was the ve thought that it should never made. But he wouldn't. He roar at him: 'That man shan't have t job. And he shan't have you!'"

(To Be Continued).

Laborites Get Set for Third Test

London, March 14 —Britain's Labor government, victorious in two crucial policy tests, mobilized its slim majority in the house of commons today to beat down a third Conservative attack on Laborite spending policies.

By rounding up every availalbe Laborite member, including some from sick-beds, Prime Minister Attlee's government last night won a 25-vote majority against a Tory motion criticizing its housing record. The vote was 314 to 289.

The first test came last week, only a few days after the newly elected Labor government, its majority in the house of commons whittled to only six seats, began its second term. That vote showed a Labor victory of nly 14 votes against Conservative Leader Winston Churchill's attacks on the government's program to nationalize the iron and steel industry.

Under the British parliamentary system, the government must resign if it loses a vote on any important issue. It is doubtful that even the Conservatives really want to topple the government and go through another election so soon after last month's poll.

Churchill's demands for three votes of confidence within a week were interpreted by observers as harassing tactics to keep the Labor government under pressure and to buildup issues for the next election campaign.

The middle-road Liberals, who hold only nine seats in commons, were responsible for the slight gain in the government's majority last night. On the first vote lalst week, all the Liberals voted with the Conservatives. Last night six Liberals voted with the government on the housing issue.

Tonight's test comes in a Conservative motion saying the house of commons "deplores the failure of the chancellor of the exchequer to enforce his own instructions to government departments not to overspend so extnesively their estimates for the current year."

Sir Stafford Cripps, Britain's austere budget chief, has promised to answer the Tory accusation in the debate preceding the voting, despite the fact he has a bad cold.

"QUICK AS YOU CAN WINK AN EYE . . ."—Top three makers of cherry pies in the nation are: Jacqueline Hanneman, 17, center, of Indianapolis, Ind., who displays her first-prize-winning pie; Betty Zimmerman, 17, left, of Berlin Heights, O., second-prize winner, and Margaret Carty, 16, right, of Ridgefield, Wash., third.

Don't Look a Gift Horse in the Mouth But That Apparently Doesn't Apply to Swapping

By DeWITT MacKENZIE
AP Foreign Affairs Analyst

They tell us we shouldn't look a gift-horse in the mouth, but that axiom certainly doesn't apply to horse swapping.

Moscow is said to be working on an amazing proposal. U. S. officials are said by James Reston, Washington correspondent of the New York Times, to believe Soviet Russia is making a new effort to arrange a deal with America to divide the world into spheres of influence.

Under this two-world arrangement, Western influence in the satellite states would be minimized or eliminated. The Western nations would adopt a hands off policy for the whole Communist world, including China and Yugoslovia, and do most of their business with the satellites through Moscow.

Red officialdom has been emphasizing "that the worlds of capitalism and communism and live in peace on a non-intervention basis."

Well, that's rise-swapping on an unprecedented scale. We get a better idea of just how big a deal it is when we check up on how much of the world has been brought under Red domination.

Soviet Russia, plus its satellites and China, comprise roughly one-third of the globe's population, and about one-fourth of its land area. Some of this, of course, Russia is in process of trying to digest, and China is included in that category. However, those figures don't include the Communist supporters and fifth-Collumnists who are working in non-Communist countries.

Looking the Russian horse in the mouth we get the idea that Moscow has overrun about all the territory it can handle conveniently at this time. The Muscovites would be glad to see the cold war eased off a bit while they consolidate their gains and get organized for another offensive in due course.

The assertion that "the worlds of capitalism and communism can live in peace on a non-intervention basis" is of course true in theory. Naturally it would worrk if there were "non-intervention.

However, "non-intervention" is a direct contradiction of a cardinal tenet of communism. None less than Lenin laid it down that communism and capitalism couldn't live in the same world and that capitalism must be destroyed.

Still, looking the horse in the mouh we are reminded that we have been up against this non-intervention promise before. From the advent of the Bolshevist government in 1918 until 1933 the United States steadfastly refused to recognize the Red government, which was straining every nerve to get its world revolution under way. Britain, for instance, was constantly fighting the Russian agents who were doing their utmost to overthrow the British government.

Finally in 1933 Soviet Foreign Commissar Maxim Litvinoff came to Washington and made glowing promises of good behavior to F. D. R. there would be no Red propaganda in the United States; Moscow would reform.

So Washington extended formal recognition — and the Reds started their drive to convert America.

That drive has progressed to a point which brought me a letter recently from a Californian who didn't like my views. He wrote (and didn't sign the letter, of course):

"You may not think it can happen in America, but it can, and when it does you will be one of the first to be taken out and get his neck stretched."

Still, while we have to look the horse in the mouth, the situation isn't without hope. Secretary of State Acheson indicated that the other day in his call for "total diplomacy" to win the cold war with communism. By this he meant an all-out effort, short of shooting, to halt Russian expansion. Having made the call he added:

"When we have reached unity and determination on the part of the free nations — when we have eliminated all of the areas of weakness — we will be abel to evolve working agreements with the Russians."

That, I take it, is a tacit warning not to try any horse deals until we know the animal is right.

Medical Group Reinstates Dr. Sanders

Manchester, N. H., March 13 —(AP)—Dr Hermann N Sander had crossed another hurdle today in his fight to return to his country doc tor practice

The New Hampshire Medical society refused yesterday to take disciplinary action against the young physician and left any such action to the Hillsborough County Medical society.

A spokesman also reported that the state society did not plan to make any recommendations to the state board of registration in meicine, which alone has the right to revoke or suspend a medical license

The board planned to meet today to set a date for a formal hearing for the 41-year-old Candia doctor acquitted last week of murder in the injection death of Mrs. Abbie Borroto, a cancer patient.

Two members of the five-man registration board were among 30 delegates and alternates of the state society's house of delegates whichdebated the Sander case behind closed doors for three hours yesterday

They were Drs Paul J Dye of Wolfeboro and Reginald K. House of Hanover. Neither had any comment

While it did not wholly close the door upon such action, the state medical society said disciplinary action "is the province of the county medical society concerned"

It could have recommended disciplinary action to the county society, but refrained from doing so. Such action might have been censure, suspension or even explusion from membership.

A county society spokesman said a special meeting could be called to discuss the case of Dr. Sander at the request of at least five members.

HAIR-RAISER — The fanlike hair-do of Richard Hitchcock, Westinghouse researcher, resulted from electricity sent through his body by a static generator on which he sat in a demonstration of electrical phenomena before the Chicago Association of Commerce.

Arms Aid Is Discussed by French

Paris, March 14 —(AP)— The national assembly opens debate today on American arms aid to France — with a strong guard force readied to prevent renewed violence between Communists and non-Communists on the floor.

The government has asked parliament to approve the aid program whereby France will receive about $400,000,000 to $500,00, out of the billion-dollar credit accorded by the U. S. congress to all signers of the Atlantic pact.

The North Atlantic pact and military aid already have been primary targets for a furious Communist-led campaign to hamper its effectiveness at every step. Communists trade unions have threatened to boycott handling of any American arms for France.

In putting through an anti-sabotage bill last week to protect American arms shipments, parliament twice became the scene of violent fisticuffs incited by Communist taunts. At one point 25 Republican guards — special militarized police — were called in to drag protesting Communists from the rostrum they occupied despite the speaker's orders.

Klan Appears to Be Back in Operation

Birmingham, Ala., March 14 — — Night-prowling bands, apparently peaceful for months, have resumed the wave of mob terror which last year led to an anti-masking law in this state.

This year, the gangs operate without robes or masks.

But state officials blame the new outrages on the Ku Klux Klan, just as they did the acts of masked hoodlums in 1949.

Four men are charged with murder at Pell City, 40 miles east of Birmingham, in the Feb. 2 night-rider slaying of Charlie Hurst, country storekeeper.

Just before his death, Hurst burst into his home and cried: "Looks like the Ku Kluxers are after me."

The men charged in this case are Claude Luker, Talladega furniture dealer; Charlie Carlisle, Jr., 24-year-old textile mill worker; Albert Wilson, 33, Talladega county farmer, and C. M. Hunter, Pell City mattress manufacturer and former county jail warden.

Three others arrested in the killing were freed last Saturday. They include the Rev. Alvin Horn, Baptist minister and organizer for the Association of Georgia Klansmen Jesse Wilson, 55, father of Albert Wilson, and E. L. Hudson, Talladega carpenter.

Here in Birmingham, 18 men are under indictment for masked flogging and related charges brought by a grand jury last summer.

Of this group, Coleman A (Brownie) Lollar, admitted klansman, has been acquitted at two separate trials. He still faces several other charges.

Another case, that of Klansman A. B. (Byrd) Carradine, ended in a mistrial last December.

The Lollar and Carradine trials followed traids by hooded, robed bands last spring and early summer in hilly, coal-mining areas west of here.

The invisible empire of the klan, split by dissention and splinter groups, denied any part of these threats, floggings and cross burnings. But lash victims described official klan regalia in telling how their assailants were dressed.

Most of the victims were white people. They were told by the gangs they had committeed some moral offense or should get a job or go to work.

Last June, the Alabama legislature passed an anti-masking law providing a fine of up to $1,000 and 12 months in jail on conviction.

Menus

Yerger High school menus.

Tuesday: Pork roast, dressing, gravy, English peas in whipped potato nests, peach jam, bread, milk.

Wednesday: Black-eyed Peas, raw carrot and cabbage slaw, corn bread, apple pie, milk.

Thursday: Italian Spaghetti, smothered cabbage, stewed prunes, bread, milk.

Friday: Fried fish, hot potato salad, fruit jello-cake.

Home Folks

THE TOWN COUNCIL MEETING

From Lion Oil Company's collection of typical Southern scenes

Recognize this scene? It could be in your home town . . . in almost any Southern community. It's the Town Council meeting—where any Southern citizen can "speak up" for his opinions.

Yes, it's great to be "Home Folks" . . . to take an active part in the daily affairs of your own community. And the Town Council meeting is part and parcel of Southern community life . . . a typical Southern scene.

Lion Oil Company, too, is an active partner in Southern living. Southern farmers, Southern industries, Southern families—all benefit through Lion's diverse production of fuels, lubricants, asphalts, protective coatings, fertilizers and other chemical products. In fact, throughout this area, Lion's employees, independent dealers and stockholders are "Home Folks" . . . Good Neighbors working for the betterment of the South.

LION OIL COMPANY
"Stop at the sign of the Lion"

TUNE IN Lion's sparkling network radio show, "Sunday Down South," every Sunday, 5 to 5:30 P. M. Music and songs in the Southern manner.

PRODUCTS SOUTHERN MADE FOR SOUTHERN TRADE

Everybody has his say

An argument? A beauty! And also a beautiful example of "free speech"—sandlot style. Sure, boys, it's o.k. to stand up for your opinions; you're in a land where freedom of speech thrives. And learning young to speak out for your ideas will help you (and the rest of us) when you grow up. By that time, you'll have cooled off a bit . . . you'll be ready to swap ideas with other community leaders, to help bring improvements to your home town.

And—if you'll pardon us while we speak up—Lion Oil Company is already doing its part for the betterment of your home town . . . and for the South. Through Lion's diverse production of petroleum and chemical products . . . Southern farmers, Southern industries, Southern families all benefit. In fact, Lion's employees, independent dealers and stockholders are "Home Folks" . . . your Good Neighbors working for a more prosperous South.

LION OIL COMPANY
EL DORADO, ARKANSAS

Lion Oil Makes These Leading Products: PETROLEUM: Motor Gasolines, Butane Gas, Kerosene, Tractor Fuel, Diesel Fuel, Heating Oils, Heavy Fuel Oils, Lubricating Oils, Protective Coatings, Greases, Road Oils, Paving Asphalts, Roofing Asphalts.
CHEMICAL: Anhydrous Ammonia, Nitrogen Fertilizer Solutions, Ammonium Nitrate Fertilizer, Sulphate of Ammonia, Aqua Ammonia, Sulphuric Acid.
